Disclaimer

This information is based upon technical data that DuPont believes to be reliable. It is subject to revision as additional knowledge and experience becomes available. DuPont does not guarantee results and, subject to any non-excludable rights you have under the laws in your country (including rights under the Australian Consumer Law), DuPont assumes no obligation or liability in connection with this information.

It is the user's responsibility to determine the level of toxicity and the proper personal protective equipment needed. This information is intended for use by persons having the technical expertise to undertake evaluation under their own specific end-use conditions, at their own discretion and risk.

Anyone intending to use this information should first check that the garment selected is suitable for the intended use. The end-user should discontinue use of garment if fabric becomes torn, worn or punctured, to avoid potential chemical exposure. Since conditions of use are beyond our control, except for those guarantees, warranties or conditions that are guaranteed under the laws in your country (such as the Australian Consumer Law, which gives you certain non-excludable rights for acceptable quality and fitness for disclosed purpose), all other warranties, conditions or guarantees (whether express or implied), including but not limited to warranties of merchantability or fitness for a particular purpose are excluded and subject to those laws in your country, DuPont assumes no liability in connection with any use for this information.

This information is not intended as a licence to operate under or a recommendation to infringe any patent or technical information of DuPont or other persons covering any material or its use.

DuPont reserves its right to make minor changes to the products featured in this catalogue.

DuPont™ Tyvek® Accessories

Why TYVEK®?

Durability, Protection, Comfort

These new accessories have been made of Tyvek® because Tyvek® is a unique and versatile material that is extremely light and soft but also very tough. What's more, it:

- Is air and water vapour permeable, yet repels water-based liquids and aerosols
- Acts as an excellent barrier against particles >1µm and fibres
- Is low-linting and antistatically treated

Typical Applications

- Pharmaceutical
- Clean room— non critical environment
- Laboratories
- Food processing
- Agriculture
- Printing
